WHAT IS THE NVA (formerly AAVA)

The National Vending Association (NVA) was established to support, educate and encourage our members and all people connected to the vending industry.

The **NVA** strives to improve the standards of vending in Australia, and enhance the efficiency and profitability of all of our businesses.

As a strong network of businesses and individuals we are prepared to speak with one voice in our dealings with Government, Business and to raise the national profile of vending.

WHAT'S IN IT FOR ME?

MEETINGS - (5 a year) with speakers from a diverse range of expertise relevant to the Vending Industry.

FORUMS AND WORKSHOPS - where smaller groups can meet for "hands on" training in areas such as coin mechanisms, insurance needs or maybe a visit to a manufactures site to learn more about the equipment we use.

SOCIAL - At the end of meetings stay for drinks and nibbles. This is a time of valuable networking and support. We also have other social events during the year.

BUYING ADVANTAGES - Members are often offered product and equipment at an NVA Member only price.

DIRECTORY LISTING - available to all members on our website.
